13" CLASSIQUE SCULPTURE TOOLS

Codes:

210* - Classique Sculpture Tool

212* - Classique Sculpture Tool

These tools are made with combined smoothly finished hardwood sculpting and modeling handles, which are tough, sharpened steel cutting heads. Assembled with heavy duty brass ferrules, these rugged tools are suitable for most clay sculpting application. Available in packaging.

10" WOOD MODELING TOOLS

Codes:

402* - 10" Wood Modeling Tool

404* - 10" Wood Modeling Tool

406* - 10" Wood Modeling Tool

This group of tools offers some of the most popular shapes for cutting, slicing, smoothing and contouring of large clay work pieces. These large sturdy 10-inch tools are made from imported hardwood and have a satin smooth finish. Comes in a heat sealed poly bag.

8" WIRE END TOOLS

Codes:

8A1* - 8" Dbl End Wire Tool

8B2* - 8" Dbl End Wire Tool

8C3* - 8" Dbl End Wire Tool

8D4* - 8" Dbl End Wire Tool

Provide the sculptor and potter with a series of shapes designed for medium duty cutting and slicing of clay. The .055" diameter wire ends are formed from high-strength stainless steel and are firmly attached to 8" long hardwood handles with brass ferrules.

Codes:

8E5* - 8" Dbl End Wire Tool

8G7* - 8" Dbl End Wire Tool

8H8* - 8" Dbl End Wire Tool

Provide the sculptor and potter with a series of shapes designed for medium duty cutting and slicing of clay. The .055" diameter wire ends are formed from high-strength stainless steel and are firmly attached to 8" long hardwood handles with brass ferrules.

* Item available in bulk pack (no bar code). Add "-X" to item no.

RIBBON TOOLS

Their name is derived from the thin flat ribbon-like steel that is used to form their cutting heads. These tools give you sharp cutting edges with additional strength in the direction of the cut. All of Kemper's sculpting tools are available individually. However, we have put together two sets, **8RSS** and **RSS**, as a convenience for the artist.

The 8R SCULPTING SERIES

Codes: (see different shape)

8R1* - 8" Dbl End Ribbon Tool

8R2* - 8" Dbl End Ribbon Tool

8R3* - 8" Dbl End Ribbon Tool

8R4* - 8" Dbl End Ribbon Tool

8R5* - 8" Dbl End Ribbon Tool

8R6* - 8" Dbl End Ribbon Tool

8R7* - 8" Dbl End Ribbon Tool

8" RIBBON SCULPTING SET

Code: **8RSS** (includes **8R1**, **8R2**, **8R3**, **8R4**, **8R5**)

These tools are used by potters and sculptors for medium duty clay cutting, shaping, and slicing. These 8" ribbon tools have cutting ends formed from high-strength sharpened stainless steel that are firmly attached to hardwood handles.

DEEP CLEAN UP TOOL

Code: **A2***

This tool has a deep cleaner for smoothing the inside bottom of large vessels as well as a small blade for cleanup. The blades are made from stainless steel, making this tool 8 1/2" total in length.

LACE TOOL

Code: **A3N***

This special teardrop shaped foot, flat on the bottom, is perfect for pressing lace in place, in addition to the fine, sharp needle for placement. The foot is stainless steel with a hardwood handle for a total length of 6 3/4".

* Item available in bulk pack (no bar code). Add "-X" to item no.

LACE TOOL

Code: A3R*

This heavy blunt needle for placement of the lace as well as a special teardrop shaped foot, flat on the bottom for pressing lace in place. The foot is stainless steel with a hardwood handle for a total length of 6 3/4".

LACE TOOL

Code: AB*

This tool has a fine, sharp needle used for the placement of the lace as well as a blade curved with a point for pressing and cleanup. The blade is stainless steel with a hardwood handle for a total length of 6 3/4".

ALUMINUM CALIPERS

Codes:

AL8* - 8" Aluminum Caliper

AL10* - 10" Aluminum Caliper

AL12* - 12" Aluminum Caliper

These lightweight and easy to handle calipers transfer measurements from model to clay for both inside and outside dimensions. They are made from a tough aluminum alloy, and are assembled with rust-free hardware that is easily adjusted by hand.

ACCREDITED CLAY GUN & DISKS (Not Kemper Brand)

Code: ATCG

This tool is used for an almost limitless number of decorative effects. It is used with any type of clay, modeling paste, bread dough, sugar paste, cold porcelain, even sculptured/3d paint.

* Item available in bulk pack (no bar code). Add "-X" to item no.

ACCREDITED TOOLS (AT) IMPORTED

POTTERY TOOL KIT - 8 TOOLS

Code: ATPTK8 -

Imported Tools equivalent to
Kemper PTK (LT5, 8R2, RB2, PRO, WT6,
SPR, S4, K35)

ACCREDITED TOOLS (AT) IMPORTED

POTTERY TOOL KIT - 9 TOOLS

Code: ATPTK9

Imported Tools equivalent to
Kemper PTK (LT5, 8R2, RB2, PRO, WT6, SPR,
S4, K35, F97)

CLEAN UP TOOL

Code: B3*

These tools present a variety of shapes and sizes of blades to accommodate the ordinary as well as the intricate cleanup job. All blades are made from high quality stainless steel with a double edge keenly sharpened.

Heavy Duty Sgraffito - Blade & Pin

Code: B3N-X

Combination tool; one side (B3) Blade and
other side (Pro) Needle.

BASIC TOOL

Code: BAS*

Used for modeling in soft clay, cleaning seam lines, cutting and restoring detail. This unfinished all-wood tool has a sharp point at one end, a flat and square on the other, and 7 1/2" total in length.

* Item available in bulk pack (no bar code). Add "-X" to item no.

BB

CLEANUP TOOL

Code: BB*

Use both blades for smoothing those hard to reach areas of your pieces as well as trimming and cleanup. Blades are made from stainless steel, making this tool 8 1/2" total in length.

BEGINNER KIT for CERAMIST

Code: BK

Includes the necessary dusting brush to assist all beginners with clean up. You don't know how wonderful it is to have this brush until you see all of the dust you have blown all over the room. Brushing dust into a small pile makes for easy clean up and no need to dust or vacuum after. Kit include K23, SPR, RD220, and DB.

BK

BSS, .030

Close up

BSL, .114

BALL STYLUSES

Codes:

BSS* - Ball Stylus, Single, Small, .030

BSL* - Ball Stylus, Single, Large, .114

Used for many applications. Decorators and crafters are finding new applications for these wonderful little tools all the time. Dots, signatures, and details are all part of the fun. Each stylus is made of hardened steel and firmly set into a hardwood handle. The diameter of each ball are noted in the picture. (See also DBS, DBSL, & DBSS)

WOODEN EMBOSSEING

SPINDLES (Burnishing Tools)

Codes: 2 shapes

C3* - Wooden Embossing Tool

C4* - Wooden Embossing Tool

Made of wood which allows some flexibility when working with paper products.

C3

C4

* Item available in bulk pack (no bar code). Add "-X" to item no.

10" HARDWOOD CALIPER

Code: CA10*

Use this 10" tool to transfer measurements from the model to the clay and measure thickness and diameters. Made from imported hardwood with rust-free hardware that is easily adjusted by hand.

WOODEN DOUBLE-ENDED CALIPER

Code: CAD8

Wooded Caliper 8" Dbl-Ended

Made of easy measuring. These double ended calipers are made of imported wood, secured with a brass bolt that can be adjusted. Each caliper is individually packaged in a polybag with the Kemper header card and UPC code. Available packaged only.

CERAMIC BEAD BAR

Code: CBBH*

Used to support beads, rings and many other small articles during kiln firing. Our ceramic bead bars are designed with a special, high temperature alloy that retains strength in the extreme heat required for ceramic firing. This 11" by 1/8" bar holds up to Cone 10.

THE CLAY DEVIL WHEEL

Codes:

CDW - Clay Devil Potter's Wheel - DISCONTINUED

CDL-X - Legs for CDW (TBD)

Ideal for children, students, and hobbyists alike. This economical wheel is purchased by elementary, junior high, and high schools as well as day camps and even parents for that special gift. Ready to take or store anywhere, this portable wheel has optional detachable legs as well as a Centering Tool for beginners. This wheel can handle 8 - 10 pounds of clay, with a built-in splash pan that will help save your floor, and water control to make cleanup easy.

For use with 110-120 volts only, this Clay Devil Wheel has an 8-inch cast aluminum wheel-head, with a permanently lubricated 1/15 horsepower motor, capable of any speed from 0-200 rpm, and a solid state foot pedal ensuring smooth operation. Shipping weight is approximately 20 pounds. Purchase the wheel alone (CDW), Set of 13" Legs (CDL), Centering Tool (CDCT).

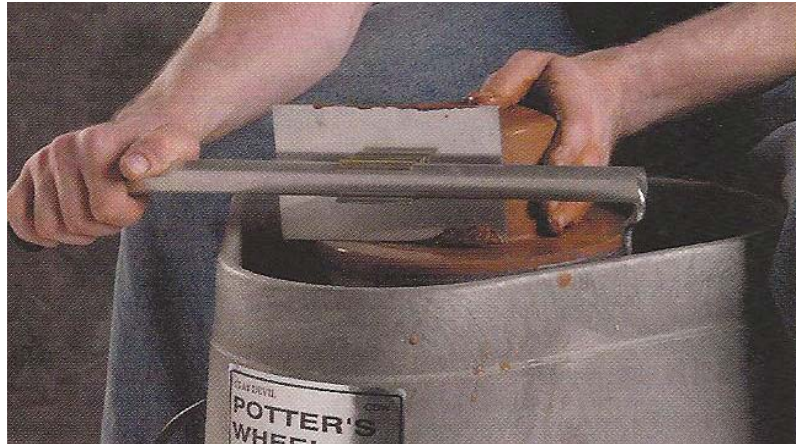

* Item available in bulk pack (no bar code). Add "-X" to item no.;
TBD - To be discontinued

CENTERING TOOL for CLAY DEVIL WHEEL

Code: CDCT-X (TBD)

Centering the clay is the most important element in throwing clay. This handy tool teaches each beginner the “feel” of centering the clay while throwing on the wheel. Beginners, both adults and children, become discouraged when unable to grasp the technique of centering. Potter’s call this tool the cheater tool - we call it the teaching tool. Give someone a positive tool for a positive first experience.

CONE HOLDERS

Codes:

CHJ - Junior Cone Holders (5)

CHS - Standard Cone Holders (5)

Holding pyrometric cones in the correct position is the way to obtain the most accurate indication of proper firing. Heat resistant wire gives these holders long life and durability. Five holders in each package.

CLAY LIFT SETS

Code: CLS & CLS-A Angled

Makes the creation of new decoration patterns and varied effects possible. Difficult to obtain details such as feathers, plant details, petals, and scales are easily done with spoons contoured for easy insertion, lifting and removal from moist clay. The sharpened stainless steel spoons are firmly set in a hardwood handle for a total length of 7". Instructions are also included in both straight and angled set.

* Item available in bulk pack (no bar code). Add "-X" to item no.; TBD - To be discontinued

CUT OUT TOOL HEAVY DUTY

Code: COH*

This COH tool has a heavier, sharp triangular stainless steel blade that is designed for heavy, thick-walled clay.

CUT OUT TOOL

Code: COR

The COR has a thin double-edged steel blade for thin-walled and delicate work. Blade is double-edged to permit reverse cuts and steady control of the tools. (Sold in package).

CERAMIC TOOL KIT

Code: CTK7

We made it easy for you. Here are seven of the most popular Kemper Tools for ceramists in this convenient kit.

This kit includes items: AB, SPD, SBR, COR, K23, P5D, WLS (Shown in order from top to bottom). These tools also sold individually.

CLEANUP BRUSH

Code: CUB*

It cleans it all! Use the large end for cleaning large hole and vase openings, and the small end for the small, delicate areas in greenware, such as openings in figurines, teacup handles, lace patterns, and more.

Use this brush (or Spoolie) to clean your own brushes, and the Fluid Writer wells.

* Item available in bulk pack (no bar code). Add "-X" to item no.

6" DOUBLE-WIRE END TOOL

D Series Wire Tools Also Sold Individually

Codes:

- D1* - 6" Dbl Wire End Tool
- D2* - 6" Dbl Wire End Tool
- D3* - 6" Dbl Wire End Tool
- D4* - 6" Dbl Wire End Tool
- D5* - 6" Dbl Wire End Tool
- D6* - 6" Dbl Wire End Tool
- D7* - 6" Dbl Wire End Tool
- D8* - 6" Dbl Wire End Tool
- D9* - 6" Dbl Wire End Tool
- D10* - 6" Dbl Wire End Tool

The D SERIES SET (Includes D1,D2,D3,D7,D10)

Code: DSS

The set contains five of the most popular DS Series tools. These 6", .035 diameter wire end tools provide the potter and sculptor with a series of shapes designed for light cutting and slicing as well as removing controlled amounts and shapes of clay.

GREENWARE DUSTER BRUSH

Code: DB*

Used after cleaning to dust greenware and restore detail. This oval shaped brush has soft hair that is firmly set in a hardwood handle for a total length of 7 3/4".

* Item available in bulk pack (no bar code). Add "-X" to item no.

DOUBLE BALL STYLUSES

Codes:

DBSS* - Stylus, Small, .030, .045

DBS* - Stylus, Medium, .045, .072

DBSL* - Stylus, Large, .072, .114

Used for many applications. Decorators and crafters are finding new applications for these wonderful little tools all the time. Dots, signatures and details are all part of the fun. Each stylus is made of hardened steel and firmly set into a hardwood handle. The diameter of each ball are noted in the picture.

DOUBLE BALL STYLUSES

DBSS, .030, .045

DBS, .045, .072

DBSL, .030, .045

DCL Tip

DCL - LARGE - 5" Total Length

DCS - SMALL - 4 1/2" Total Length

DCS Tip

DETAIL CARVING TOOLS

Codes:

DCS - Small ; DCL - Large

These tools will easily carve small and miniature details. They are perfect for that extra touch. The steel blades are formed and precision ground to a razor sharp point. The DCS small tip has a .030" wide point while the large tips point is .057" wide. Both tips are firmly set in a comfortable hardwood handle. These two tools are 5" in total length.

DOLL DETAILING KIT Code: DDK (Includes COR / LFM / K26 / DES)

Contains four of the most popular tools used in dollmaking. Ideal for beginners as well as the professional.

Contains one each: COR - Cut Out Tool for eyes, LFM - Lady Finger Tool for detailing hands, K26 Detail Carving Tool for cleaning hands and detail work, DES - Eye Setter to aid in setting eye in place. Includes printed instructions.

* Item available in bulk pack (no bar code). Add "-X" to item no.

DESIGNER DOT SETS

Code: DDSXMAS (only one design available)

Decorate anything and everything from clay to note cards. The dot patterns and stamps give a variety of looks from country to folk, and antique too! Simply dip tips into clay or your favorite medium and transfer design. Available in kits only.

DOLL EYE SETTER

Codes:

DES*: Large 18-22mm

DES-M*: Medium 12-18mm

DES-S*: Small 8-12mm

This tool is used to hold the eye during insertion into the socket. Available in small, medium, and large. This 7 1/4" tool has a cradle end made of flexible stainless steel mounted in a hardwood handle. The stainless steel shank can be bent to the proper angle for insertion into your doll.

DES-S-X - SMALL 8 - 12 mm

DES-M - MEDIUM 12-18 mm

DES - LARGE 18 - 22 mm

DMC-1

DRY TEXTURING BRUSH, COARSE

Code: DG1*

The stiff, coarse bristles are designed for use on hard greenware. The brush is made with stainless steel wires firmly set in a hardwood handle for a total length of 6 1/2".

DG1

DARWI MODELING COMPOUND

Code: DMC-1

This clay sticks to most materials, including glass, plastic, and metal, and has numerous uses and applications. School projects are a snap with this white, non-toxic, modeling compound. This clay completely hardens, with very little shrinkage, after air drying for about 24 to 48 hours so there's no firing required. Once opened, put your remaining clay, with a wet paper towel, in a seal tight bag and place in the refrigerator until you need it again. Originally designed for use in the repair of picture or mirror frames, this Belgium made modeling compound has quickly become a source for molds made for casting metals, jewelry, school project and decorative painting embellishments.

* Item available in bulk pack (no bar code). Add "-X" to item no.

DEEP CLEANER

Code: DPC*

Designed for smoothing uneven areas and small bubbles on the inside bottom of large vessels, mugs and cups. This 10 1/2" long tool has stainless steel ends that are sharp and beveled.

DRILL TOOLS

Codes:

DR2* - 3/16" Drill Tool

DR4* - 1/4" Drill Tool

DR6* - Extra Fine, Drill Tool

These tools were designed for drilling holes in greenware by hand. The DR2 is a high carbon drill, DR4 is a cold rolled drill, and the DR6 is a #60 high speed drill.

DR6, 1/32" or .79mm

DR4, 1/4" or 6.4mm

DR2, 3/16" or 4.8mm

DOLL STRINGING TOOLS

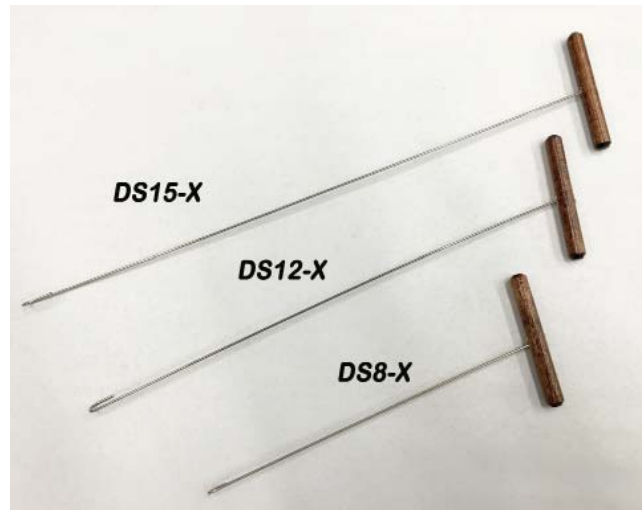

Codes:

DS8-X, - 8" Doll Stringing Tool

DS12-X - 12" Doll Stringing Tool

DS15-X - 15" Doll Stringing Tool

Used to grab the elastic bungee cord and pull it through the doll body to attach the head, arms and legs.

The D SERIES SET (Includes D1,D2,D3,D7,D10)

Code: DSS - see page 13

DIPPING TONGS

Code: DTA*

Designed for that flawless glaze look. The four sharp gripping points on this tool make minimal contact with the piece being dipped, which allows the glaze to fill in and extinguish those tattletale marks. These 10" tong are made from heavy plated steel and have dipped plastic handles to provide a good grip. They are capable of handling various size and shaped items.

* Item available in bulk pack (no bar code). Add "-X" to item no.

ELEMENT PINS

Code: ELP

Hold loose kiln elements in place with these easy to insert, sharp-ended pins. These 1 1/4" pins are of a heat resistant alloy for temperatures to 2500 degree F (Cone 13). Sold 12 per package.

ELP

ELEMENT STAPLES

Code: ELS

Hold loose kiln elements in place with these easy to insert, sharp-ended staples. These 1 1/2" staples are of a heat resistant alloy for temperatures to 2500 degree F (Cone 13). Packed 12 per package.

ELS

EMBOSSING SPOON

Code: EMBS-X

EMBS

DOLL EYE SIZERS

Code:

ES0-X - 6mm - 8mm

ES1-X - 10mm - 12mm

ES2-X - 14mm - 16mm

ES3-X - 18mm - 20mm

ES4-X - 22mm - 24mm

ES5-X - 26mm - 28mm

ES6-X - 30mm - 32mm

Used for the many variations of flower shaping. Originally designed to shape holes for doll eyes, crafters were thrilled at the many size flowers they could shape with these tools. Made of smooth hardwood with no finish so the stick remains porous for easy separation.

DOLL EYE SIZERS

Codes:

ESS-1 Set (10mm-24mm)

ES1, ES2, ES3, ES4

ESS-2 Set (6mm - 28mm)

ES0, ES1, ES2, ES3, ES4, ES5

Hardwood tools designed for hollowing out the doll eye sockets before insertion of the eye. All sizers are available individually or in sets.

EZ-SQUEEZE ADAPTER

Code: **EZ-SQ (K45 not included)**

For continuous extruding. This adapter has a special dye to fit the barrel of the Kemper Klay Gun (sold separately) and a built-in plunger for better leverage when extruding clay. Easy to follow instruction are included. The adapter is made of dye cast metal. Each adapter is packaged in a heat sealed polybag.

FETTLING KNIVES

Codes:

F96* - Soft Fettleing Knife

F97* - Hard Fettleing Knife

Used to trim pour hole waste, remove mold marks, carve and sculpt ceramics and greenware. F97 has a hard tempered steel blade with the same “springy” feel as most conventional blades. The F96 is a softer steel blade, with much more flexibility which allows it to bend. Both blades are 4” long and firmly set in a hardwood handle for a total length of 8”.

* Item available in bulk pack (no bar code). Add “-X” to item no.

FLOWER CLAY ROLLER

Code: FCR*

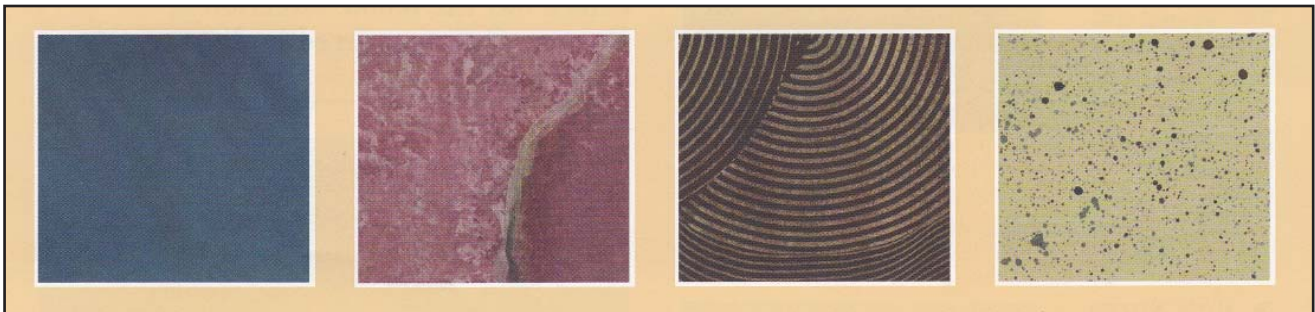

Quickly and easily roll clay to the proper thickness with this Flower Clay Roller. Made to fit your hand just right, the 5" roller is made from hardwood and sanded to a smooth finish.

FAUX FINISHING TECHNIQUES KIT

Code: FFTK

Kemper teamed up with the well known published artist Carolyn Phillips to make a kit that is affordable. This kit has more than one application and is easy enough for anyone to do. The instructions have color photos for reference and step by step instructions explaining everything you'd need to know (from paint to techniques) if you didn't know anything about painting. All of these tools are also available separately. The perfect gift.

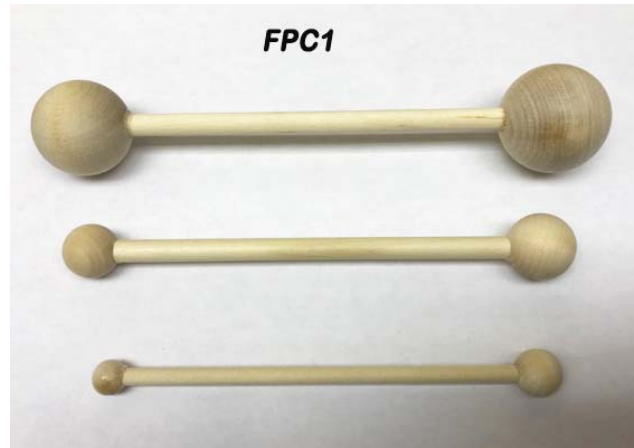

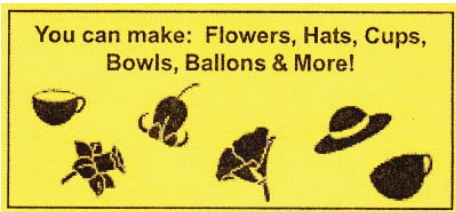

* Item available in bulk pack (no bar code). Add "-X" to item no.

FLOWER PETAL CUPPER SET

Code: FPC1 (includes information)

Used to form various shapes and sizes of flower petals, by simply placing a thin rolled layer of clay into the ball, pulling it down over the cup and trimming to the desired size. Remove clay from the cup and shape ends. Use this to make individual flower petals or the base of a whole flower.

Made of smooth hardwood with no finish. The stick remains porous for easy separation.

FINISHING RUBBERS

Codes:

FRH* - Hard 4 1/4"

FRSM* - Hard 3 1/8"

FRSO* - Soft 4 1/4"

FRSS* - Soft 3 1/8"

Used for smoothing, shaping and finishing pottery pieces. Molded from pliable rubber. We offer them in two kidney shapes and different grades of resiliency.

FLESHING TOOLS (THE FT SERIES)

Codes:

FT451*, FT452*, FT453*

Designed for taxidermy, the heavy duty stainless steel blade has both a beveled and serrated edge for scraping. Used to clean out the inside of gourds, on large clay projects, and in the medical commercial industry.

* Item available in bulk pack (no bar code). Add "-X" to item no.

FEATHER TEXTURE BRUSH

Code: FTB*

Fine bristles that provide the right degree of stiffness for the short stroke texture techniques used to apply textures to small hard-to-get-at areas. The stainless steel bristles are firmly set in a firm grip, textured aluminum handle for a total length of 5".

FTB

FW11

FW12

FW21

SCULPTURE TOOL (THE FW SERIES)

Codes:

FW11*, FW12*, FW21*,

FW22*, FW31*, FW32*

Designed to withstand the heavy side loads encountered when working on large sculpture and wheel thrown pieces. These tools are made of sharpened stainless steel flat ribbon and are assembled with heavy duty brass ferrules. Their contoured hardwood handles make a comfortable fit for any size hand.

FW22

FW31

FW32

FW11 Tip

* Item available in bulk pack (no bar code). Add "-X" to item no.

FLUID WRITER

Codes:

FWPL (LARGE) & FWPS (SMALL)

Use your own medium in this specially engineered pen. Don't be fooled by imitations. The Kemper engineers designed this tool to give you a drip less, flawless, consistent width line that works with various mediums on anything. Each pen comes with stem cleaner to keep the minuet tip clear from particles or other debris. The specially engineered process does not allow for interchangeable tips, however, we offer this pen in two tip sizes. FWPS (Small) for a fine point line size and FWPL (Large) for a medium pint line size.

For perfect lines with a pen like feel, try our Gold Pen on page 26.

GLAZE AND BISQUE CUTTER

Code: GBC

Ideal for enlarging holes that have become filled with glaze or cutting through difficult surfaces such as glaze, bisque, and tile. The remarkably tough steel rod is coated with Tungsten Carbide particles and set firmly in a hardwood handle for a total length of 6".

GREENWARE CLEANING SET

Code: GCK

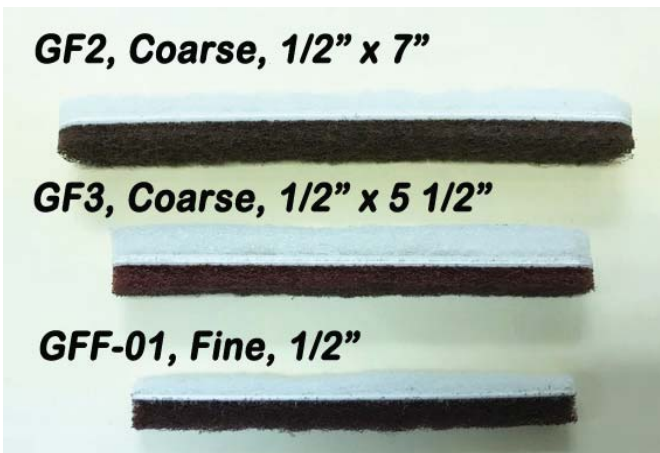

The three basic tools for cleaning that everyone needs to start out with. Kit includes a cleanup tool (K23) for cleaning seams, a sponge (SPR) for smoothing cleaned seams and a Rubber Scrubber (RS100) for large flat surfaces.

GF2, Coarse, 1/2" x 7"

GF3, Coarse, 1/2" x 5 1/2"

GFF-01, Fine, 1/2"

GREENWARE FILES

Codes:

GF2* - Large Coarse

GF3* - Small Coarse

GFF-01* - Skinny

The "no fatigue" tools that shape to the contour of both large and small areas of greenware. These sanders are lightweight, flexible and two-sided. They cut cleaning time even on low-fired porcelain bisque, all clay mediums, and wood.

* Item available in bulk pack (no bar code). Add "-X" to item no.

GOLD PEN

Codes:

GPS - Small, .26mm tip

GPL - Large, .49mm tip

Designed specifically for the application of gold and other metallic paints. Fill up the well with your medium, and let our engineered design do its job of a NO DRIP OR SPILL application, putting that design only where you want it. This comfortable tool holds exactly like a pen, gliding smoothly over the surface. The specialized design of this pen does not allow for interchangeable tips. We, however, have two pens: GPL - large .49mm tip and GPS - small .26mm tip. Both pens come with a stem cleaner for cleaning out the precision tip hole of the pen.

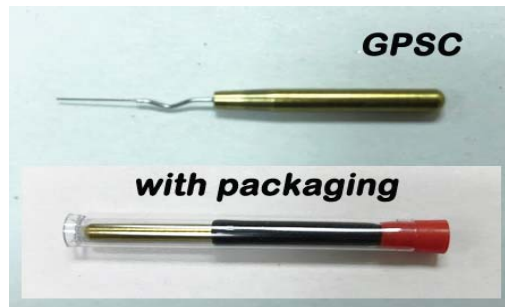

If you're more comfortable holding a brush, turn to page 22 for our Fluid Writer which is design like the Gold Pen. The only difference in the Fluid Writer is the way you hold it. If you're not sure which one you like, you can try them both.

STEM CLEANER

Code: GPSC

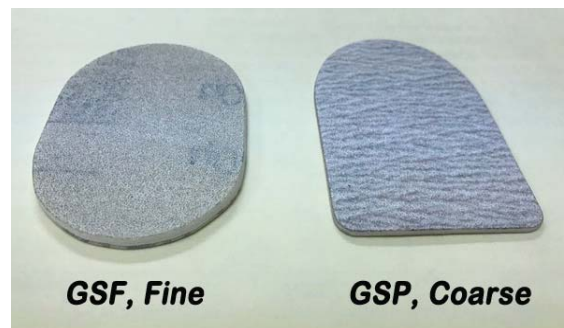

Used to keep the tips of both the Fluid Writer and the Gold Pen free from clogs and particles. We recommend having an extra one on hand as the tips will become permanently clogged if not thoroughly cleaned after use.

GRIZZLY SANDING PADS

Codes: **GSF*** (Fine), **GSP*** (Coarse)

Just like a bear - aggressive and hard to wear out. Use them on bisque, greenware, or wood. They even polish porcelain bisque. The two-sided pads are available in coarse or fine.

HAKE BRUSH

Code: HB1*

Made from extremely soft wool. This 1 1/8" brush is excellent for applying glazes and other paint mediums. The lightweight wooden handle is 8" long for large vessels. Plastic cover upon delivery.

* Item available in bulk pack (no bar code). Add "-X" to item no.

HOLE CUTTERS

Codes:

HC1* - 3/16" Diameter, 5 3/4" Long

HC1A* - 1/4" Diameter, 5 3/8" Long

HC2* - 5/16" Diameter, 5" Long

HC3* - 1/2" Diameter, 6 1/2" Long

HC4* - 7/8" Diameter, 6 1/2" Long

Provide an easy method for cutting clean holes in wet thick-wall greenware and wet clay. All five sizes can be used to achieve a variety of designs. All of these hole cutters have sharp, polished brass, cutting tubes with the smaller sizes firmly set in hardwood handles. The two larger tubes have ends covered with a rubber cap for comfort.

HC4 - 7/8" Diameter, 6 1/2" Long

HC3 - 1/2" Diameter, 6 1/2" Long

HC2 - 15/16" Diameter, 5" Long

HC1A - 1/4" Diameter, 5 3/8" Long

HC1 - 3/16" Diameter, 5 3/4" Long

HOLE CUTTER PUNCH

Codes:

HCP1*, 3/16" Diameter

HCP2*, 1/4" Diameter

Excellent for cutting potpourri holes, christmas tree holes and more. The tubes have spring loaded aluminum rods which eject the clay. These punches are available in two sizes and are made with brass tubes set in a hardwood handle.

HCP2, 1/4" Diameter

HCP1, 3/16" Diameter

HCS4, 1/4" Diameter

HCS3, 3/16" Diameter

HCS2, 1/8" Diameter

HCS1, 3/32" Diameter

SQUARE HOLE CUTTERS

Codes:

HCS1* - 3/32" Diameter

HCS2* - 1/8" Diameter

HCS3* - 3/16" Diameter

HCS4* - 1/4" Diameter

Ideal for cutting out windows. These cutters are designed with push out plungers to remove clay from tube. Made of high quality brass with rubber tips on the plunger for comfort.

** Item available in bulk pack (no bar code). Add "-X" to item no.*

HANDLEMAKERS

Codes:

HM1* - 1" Pitcher

HM2* - 3/4" Mug

When drawn through a slab of clay, these tools form perfectly shaped strips that can be readily cut to length and attached to ceramic vessels as handles. These special inside taper on the cutters compresses the clay as it is cut, imparting a smooth finish to the clay handle. These tools are made with stainless steel ends that are firmly set in smooth hardwood handles.

HIGH TEMP STAMEN WIRE (24 Gauge)

Code: HTS

(.020 DIA)

For smaller jobs, this 24 gauge, high temperature steel wire is just right for jewelry and small armatures.

HTS = 10 FT

HTS-150 = 150 FT

HTS-SPOL = 5000 FT (5 LBS)

HIGH TEMP WIRE (17 Gauge)

Code: HTW

Used for any projects that requires wire support in high temperatures of ceramic kilns; bottle sagging, bead supports, special stilts, element pins, kiln furniture, cone holders. This 17 gauge high temperature steel wire contains no nickel and can be fired up to cone 5. Wire comes coiled in a length of 10 ft. per package.

HTW = 10 FT

HTW-150 = 150 FT

HTW-500 = 500 FT

HTW-SPOL = 5000 FT

** Item available in bulk pack (no bar code). Add "-X" to item no.*

INDUSTRIAL KLAY EXTRUDER

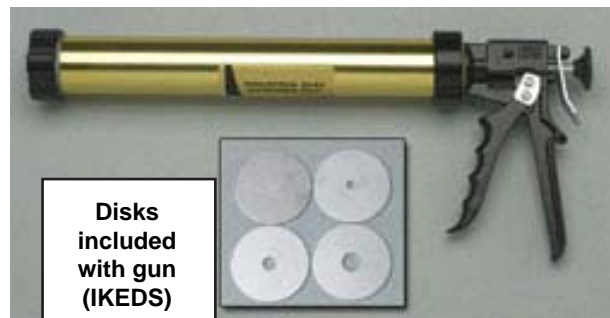

Code: IKEG

This extruder sports a 20" long barrel with a diameter of 2", fast action trigger, easy loading, and includes 4 disks. Packaged in a polybag with instructions.

Additional disks sets available

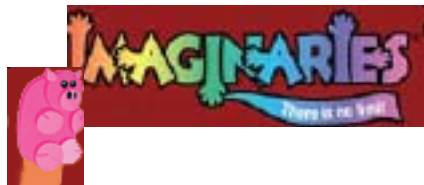

- IKED12C** IKEG Disk, 1/2" Round Hole
- IKED14C** IKEG Disk, 1/4" Round Hole
- IKED1R** IKEG Disk, 1 1/8" Ribbon

IKEG

FINGER PUPPETS KIT - 3 Pigs

Code: IFPTP

Kit includes clay, cutters, and instructions on how to make the puppets with children.

Family-Night Activity Included

“EASY Instructions for PARENT-CHILD INTERACTION!”

“Politically correct ORIGINAL STORY included to share with the whole family!”

“How to put on a puppet show and make a theatre out of stuff from home.”

KLAY PEN KITS

Codes are noted below

Each kit comes with clay, cutters, pen, instructions, and treasure map to make a great character pen. There is even enough clay to make 2 or more pens.

Fun, adventure, and knowledge are found when following the enclosed TREASURE MAP!

Code: IPKOO
Oscar The Octopus

Code: IPKAA
Al The Alien

Code: IPKHH
Harry the Heart Fish

Treasure Map includes a **SECRET FORMULA** to write a perfect and creative story.

INDUSTRIAL SCULPTING TOOLS LIFE SIZE SCULPTING

This product line is designed specifically for industrial and commercial application. Used for life size sculpture and automobile models. These tools are made from a high-carbon based steel and tightly secured in a hardwood handle.

INDUSTRIAL FINISHERS

These smaller blades are perfect for the final strokes to your work of art.

Small sharp cold rolled steel blades provide clear detail on any surface.

Codes:

ISF114* - Industrial Finisher 1 1/4"

ISF134* - Industrial Finisher 1 3/4"

ISF212* - Industrial Finisher 2 1/2"

INDUSTRIAL RAKES

Used for removing large amount of clay when beginning work. These tools are big enough for any job. Straight blades help smooth large clay surfaces while curved blades allow for smooth corners. All rakes are cold rolled steel set into a hardwood handle.

Codes:

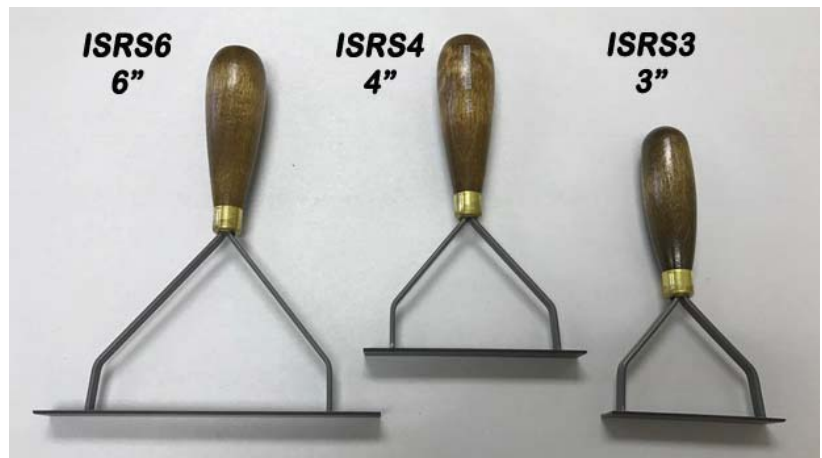

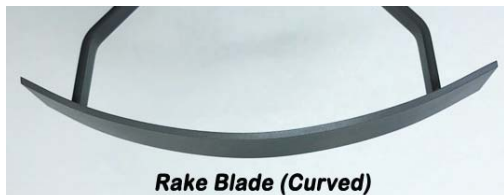

ISRC3* - Industrial Rake, 3\"Curved

ISRC5* - Industrial Rake, 5\" Curved

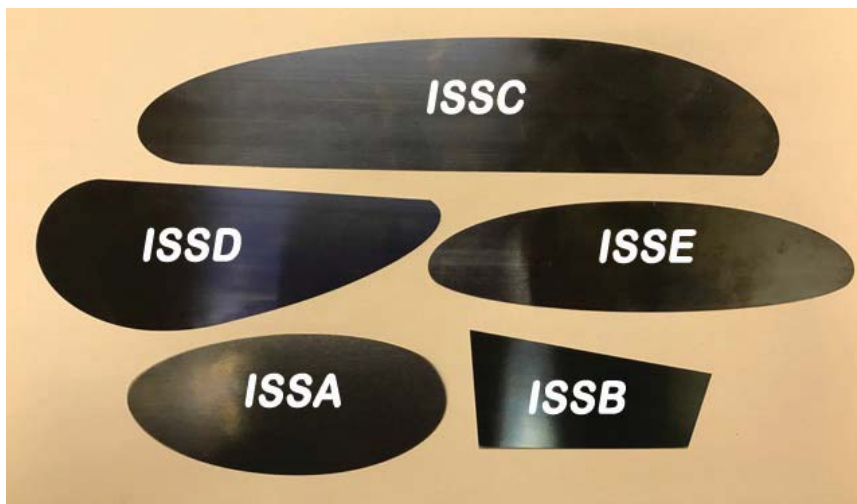

ISRS3* - Industrial Rake, 3\" Straight

ISRS4* - Industrial Rake, 4\" Straight

ISRS6* - Industrial Rake, 6\" Straight

INDUSTRIAL STEEL SCRAPERS

Scrapers can be used for the final smoothing and texturing of clay work on large surfaces. Made from tempered blue steel, these scrapers are made in several shapes and sizes from any surface and any design.

JOHNSTON PRIMARY SCULPTING TOOL

Code: JPS-X

Used to perform all the primary sculpting, smoothing and shaping functions. The specially designed foot is perfect for forming fingernails and ears. This tool design was a collaboration between Doll Artist Jack Johnston and Kemper.

RECESS SMOOTHER

Code: K20*

Designed for smoothing recessed flay spaces on wet greenware. It is also excellent for cutting clay away from and accentuating raised designs. The blades are stainless steel with a hardwood handle for a total length of 6".

LACE TOOL

- Code: K21*

Like our AB tool, this fine, sharp needle is for placement of lace and the curved blade assists pressing and cleanup. The blade is stainless steel with a smaller hardwood handle of 5/16" in diameter and 6 3/4" total length.

CLEAN UP TOOLS

Codes: K23* & K24*

These tools present a variety of shapes and sizes of blades to accommodate the ordinary as well as the intricate cleanup job. All blades are made from high quality stainless steel with a double edge keenly sharpened.

INCISING TOOL

Code: K25*

Designed especially for delicately detailed incising and excising work, this tool has been used as a lace draping and cleanup tool as well. The sharp needle is set firmly in one end, with a steel spear-shaped blade on the other. With a smooth hardwood handle, this tool is a total length of 6 1/2".

* Item available in bulk pack (no bar code). Add "-X" to item no.

FINGER TOOL

Code: K26*

Designed for cleaning and sharpening the delicate fingers and toes of porcelain greenware figurines. Slightly longer than the detail carving tools, this blade is also formed and precision ground to a sharp point.

SGRAFFITO

Code: K27*

The spearhead was designed to provide sharp smooth cuts for incising, excising, widening, and deepening detail work..The forked-end-twin-line works well for hairlines, wood grain and basket weave sgraffito effects in limited access areas. This tool has stainless steel blades with a total length of 6”.

ZIG-ZAG SAWS

Code: K31* & K32*

These special blades will cut in any direction that pressure is applied. The high carbon steel saw is firmly set into a hardwood handle for a total length of 5 3/8”. The K32 is a heavy duty saw used for cutting out designs in thick-walled greenware.

SPONGETTE

Codes:

K33L*, 13” length

K33*, 7” length

These spongettes, for convenience, have two different lengths, 7” and 13”. The non-interchangeable sponge is made of soft cellulose material and used not only for cleaning, but decorating as well.

TRIMMER KNIFE

Code: K34*

For jobs where slim and sharp count. This tool is used to trim clay and to cut out designs. This semi-flexible blade is keenly sharpened for a smooth cut. The stainless steel blade is firmly set in a smooth hardwood handle for a total length of 5”.

* Item available in bulk pack (no bar code). Add “-X” to item no.

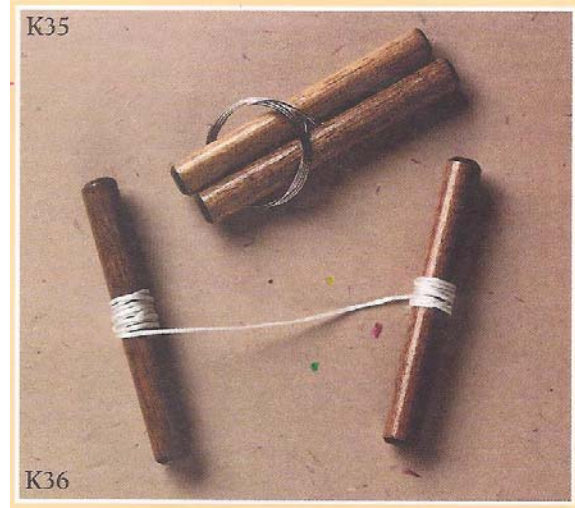

CLAY CUTTERS

Codes:

K35 - Wire Clay Cutter

K36 - Nylon Clay Cutter

Ideal for slicing and cutting lump clay, as well as trimming pots and other projects on the wheel. Hardwood 3" toggle handles are firmly fastened to approximately 18" of wire/line. The K35 wire is quality stainless steel while a high-strength braided nylon cord is used for the K36.

WIRE CLAY CUTTER

Code: **K37T - Twisted, 34.5"**

This tool has heavier handles and thicker, 36" long wire for cutting and trimming large bodies of clay. Comes in a heat sealed polybag.

INDUSTRIAL WIRE CUTTER

Code: **K38**

This tool has heavier handles and thicker, 36" long wire for cutting and trimming large bodies of clay. Comes in a heat sealed polybag.

BUDSETTER

Code: **K43***

Used to place small clay buds and flowers. The sharp double needles stabilize the objects being placed and eliminate the turning usually encountered. The steel prongs are firmly set in a hardwood handle for a total length of 4 3/4".

* Item available in bulk pack (no bar code). Add "-X" to item no.

KLAY GUN

Code: K45

The most popular tool by far. Use it for a limitless number of decorative effects such as hair, grass, flower stamens, rope, logs, bricks, vines, and stems. Includes a set of 19 assorted discs that are formed to allow a flush cutoff of the extruded clay. Kemper's Klay Gun is made with a sturdy die cast zinc alloy that will not burst open or explode at the seam. This non-rusting alloy is Chrome Plated for a nice appearance.

REPLACEMENT DISCS

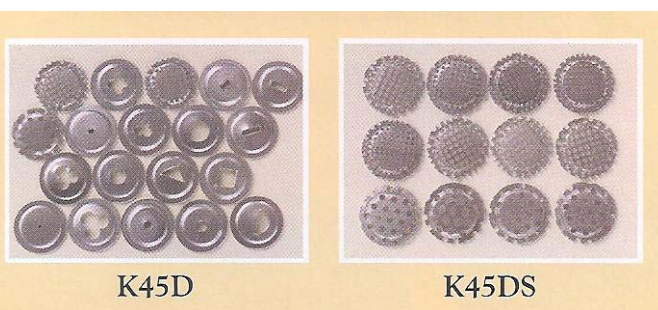

Code: K45D

Replacement discs available to replace the original ones. Sorry, replacement disks are not available individually.

SCREEN DISKS

Code: K45DS

For Kemper's Klay Gun contains 12 disks with screens of various width holes.

LEAF CUTTER SET

Code: K46

Make leaves for trees, flowers and fun. Made of rust-free material, these cutters have plungers to push clay out and range from approximately 1" to 2" in length.

ROSE CUTTER SET

Code: K50

Perfect roses every time with this set of five round cutters and instructions. Use our flower Clay Roller to roll out your clay to the desired thickness, then cut out the petals (circles). Following the instruction guide, you can hand-form the flower or use our Petal Cupper Set (FPC1) to shape your rose. Use the Flower Stick to roll the edges of your petals over. These cutters are made from rust-free materials and have ejection plungers. They range in sizes from 1/2" diameter to 1 1/2" diameter

* Item available in bulk pack (no bar code). Add "-X" to item no.

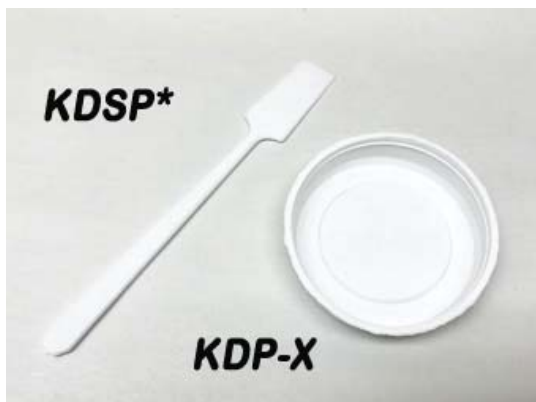

DECORATOR PAN

Code: **KDP-X**

DECORATOR SPATULA

Code: **KDSP***

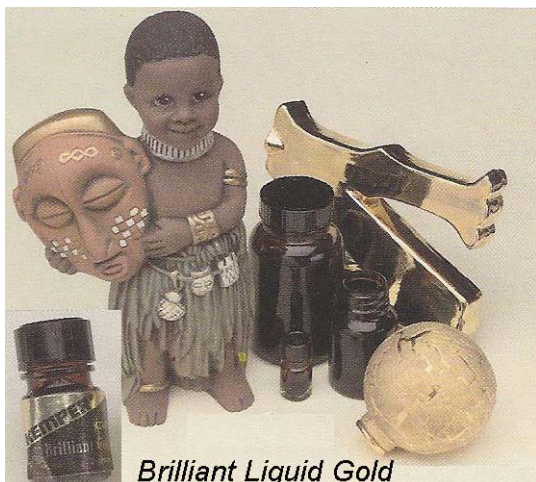

This small spatula was originally sold only with the decorator set. However, the need for crafters to have a small, inexpensive spatula became so apparent that we are now offering this product individually.

LIQUID GOLD

Code: **KG-A - Brilliant**

For professional results. No rosy sheen, dull or brassy appearance. One coat coverage, and fires at cone 019-018. In convenient 2 gram bottles, our brilliant gold has a true gold appearance.

Brilliant Liquid Gold

DECORATOR SET

Code: **KDS13**

Code: **KDS24**

Used to make hundreds of exciting designs for Indian folklore stories, hieroglyphics, or design work on glass, clothing, leather, wood, candles, greeting cards, stationary and other materials. An activity that sparks the imagination. This set also contains pan, spatula, and instruction sheet.

KDS13 WIRE DECORATOR SET
Includes 9 tools, spatula, & pan

KDS24 WIRE DECORATOR SET
Includes 9 tools, spatula, & pan

KLAY KUTTER SET

Codes are noted below

Use the cutters with any type of clay, modeling paste, dough, or soft wax. Make jewelry, magnets, decorations for candles, gift boxes and more!

Each set contains pattern cutters and an easy to read instruction sheet to make the items pictured on the front of each box.

Each set is packaged in a shelf standing or hanging, 3 1/2" x 5 1/2" box, with a UPC code and instructions for the consumer to buy the medium to use with the set.

No minimum order.

KEMPER QUICK CLEANERS

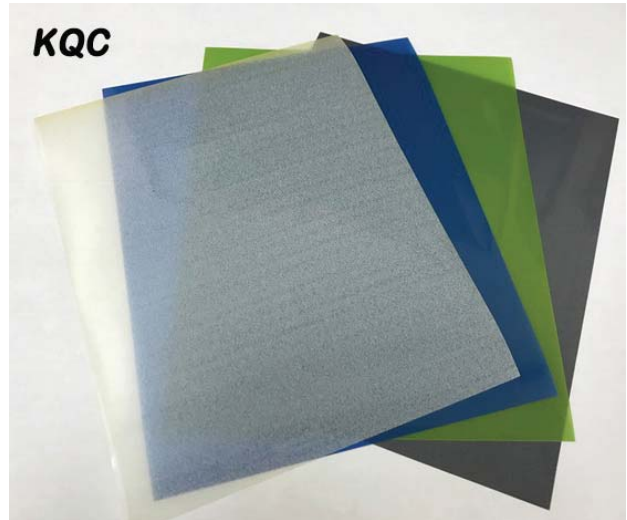

Available in 4 different grit sizes:

Code: KQC280* (TBD)
 (280 Grit), 4 1/2" x 5 1/2"
 For greenware, bisque & porcelain

Code: KQC320*
 (320 Grit), 4 1/2" x 5 1/2"
 For greenware, bisque & porcelain

Code: KQC400*
 (400): 4 1/2" x 5 1/2"
 For porcelain

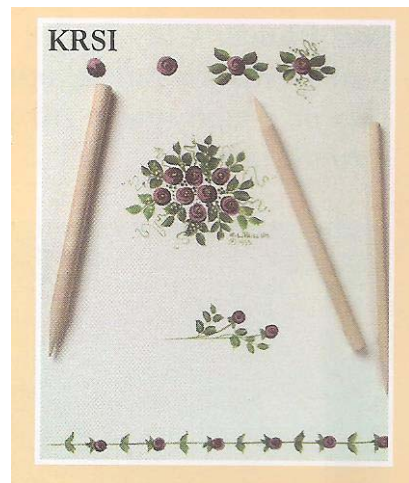

Code: KQC600*
 (600): 4 1/2" x 5 1/2"
 For porcelain finishing and polishing

These washable sheets can be used over and over for cleaning without leaving scratches. The 400 and 600 grits can be used for fired underglazes, fired raised glazed surfaces, fired decal surfaces, bisque, and china painted areas.

ROSE STICKS

Code: KRS1
 Decorate notebooks, boxes or cards with these easy-to-use Rose Sticks. Just dip and twirl to make perfect folk roses every time.

RIBBON SERIES

Code: KSP1*

Code: KSP4*

Designed for medium duty pottery and sculpture work, these 7" long tools have sharpened stainless steel beveled ribbon ends attached to hardwood handles.

* Item available in bulk pack (no bar code). Add "-X" to item no.; TBD - To be discontinued

LADY FINGER TOOL SET

Code: LFTS

(Includes LFF, LFM, LFC)

Sold separately

LFC - Lady Finger, coarse

LFM - Lady Finger, medium

LFF - Lady Finger, fine

Originally designed for separating fingers and toes. These handy little tools are capable of fine detail work in tight area. Precision hardened steel burr tips are embedded in smooth hardwood handles.

LOOP TOOLS

Used to remove controlled amounts of clay from wheel-thrown and sculpture pieces. The shaped cutting heads are made from heavy stainless steel ribbon with sharpened edges. Each tool, with its rugged hardwood handle, ensures a sure grip and easy manipulation in wet clay. The widest portion of each head is indicated. See shapes of loop tools.

MULTI DRILL TOOL

Code: MDT*

This hand tool is designed for the convenience of having one tool that drills different hole sizes. Simply rotate this drill by hand using light pressure up to the notch (each notch represents a hole diameter). The drill is made of high quality stainless steel with textured aluminum handles for a firm grip. Hole sizes are: 1/16" 3/16" 5/16" 7/16" 1/2" 5/8" 3/4".

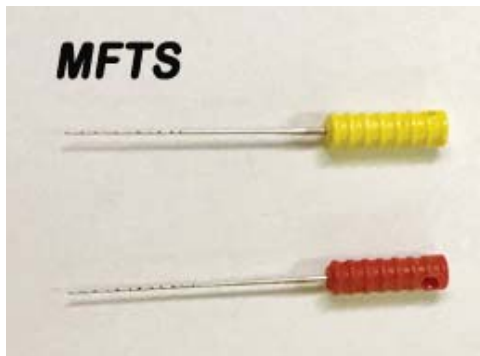

MDT

MINI FINGER TOOL

Code: MFTS

Perfect for those tiny hard to get into places where you have to remove clay.

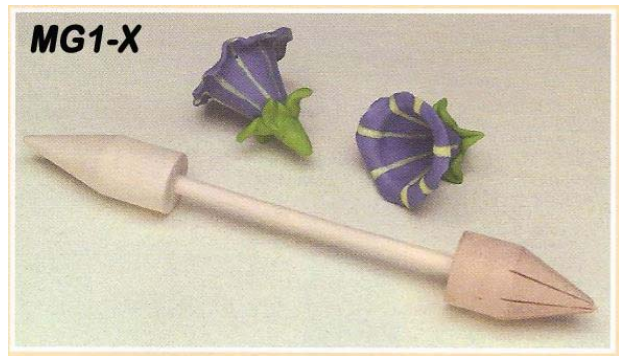

MFTS

MORNING GLORY TOOL

Code: MG1-X

Forms trumpet-shaped blossoms, such as the Morning Glory, with these two smooth cones. One cone is smooth, and other fluted so you can make beautiful effects for many flowers. The cones are mounted on an unfinished hardwood handle for a total length of 7 1/2".

MG1-X

MKN

MOLD KNIFE

Code: MKN*

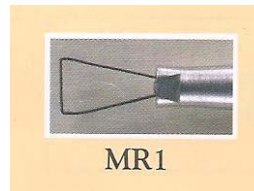

Used to trim away the excess clay (spare or waste) from slip-cast molds, this eight inch all hardwood knife has proven to minimize damage to the mold.

PORCELAIN CLEAN UP BRUSH

Code: PCB*

Perfect for dusting porcelain pieces before firing, this brush is made exclusively for Kemper with Capra bristles in a wood handle for a total length of 7 1/4".

POTTER'S CUT-OFF NEEDLE (QUILLING)

Code: PCN*

A necessity for all potters, this 1 15/16" long, thin heat-treated steel needle makes a clean smooth cut with a minimum of drag when removing the uneven top edge of thrown items.

PCN packaged

POT LIFTERS

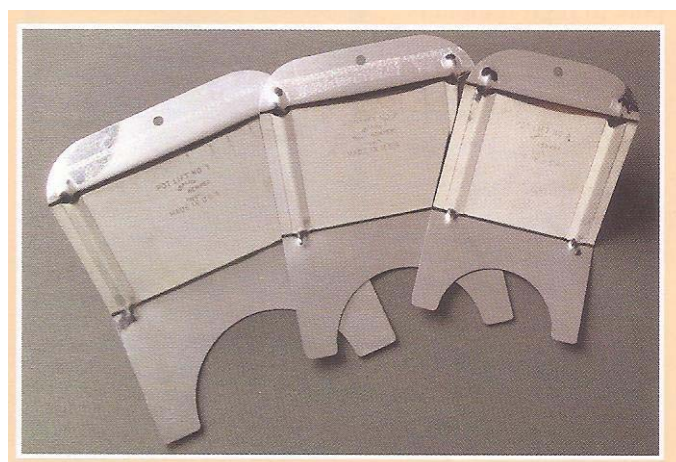

Codes:

PL1-X - 6" Wide (pairs)

PL2-X - 5" Wide (pairs)

PL3-X - 4" Wide (pairs)

Remove pottery items from the throwing wheel easily and without damage. Lifts are made from rust-free, high-strength aircraft aluminum alloy. They come in pairs.

*****Use our pot lifters for a collapse-free way of removing pots from the wheel.**

POTTER'S NEEDLE HEAVY DUTY

Code: PNH*

Cut through and remove the uneven top edge of wheel-thrown items. The large 1 15/16" (49mm) long, sharp, heat-treated steel needle is set in a 1/2" diameter hardwood handle for a sturdy grip.

PRO TOOL

Code: PRO*

Used to cut heavy clay strips, designs, and holes, this tool is used with many art mediums for a wide variety of uses - too many to name! This 6 5/8" long tool has a sharp steel needle and is firmly set in a textured aluminum handle providing a firm grip for wet hands.

* Item available in bulk pack (no bar code). Add "-X" to item no.

PIERCING TOOLS --- FOR PAPER, CLAY, SCRAP BOOKING, AND MORE!

Use this tool to make decorative borders, design work for memory pages, gift cards, bookmaking, lamp shades, as well as impressions in metal and clay. This tool has sharp steel needles with a wooden handle.

PIERCING TOOLS

Codes:

PT1 - Piercing Tool, Fine

PT2 - Piercing Tool, Heavy Duty

PT3 - Piercing Dbl end, Fine

Ideal for piercing paper, books and binding work, ornaments, copper punching and even lampshades. This is one of those versatile multi-purpose tools you'll be reaching for daily. The needles vary in length and are firmly set into a hardwood handle.

PIERCING TOOL (2/16" DIAMETER NEEDLE)

Code: PT4

This needle is perfect for bookmaking and clay. It works just like an awl with a large 2/16" diameter needle.

PIERCING TOOL (3/16" DIAMETER NEEDLE)

Code PT5

This needle is perfect for bookmaking and clay. Works just like an awl with an extra large 3/16" diameter needle.

PIERCING TOOL (4 NEEDLES SQUARE)

Code PT100*

PIERCING TOOL (4 NEEDLES IN LINE)

Code PT101*

* Item available in bulk pack (no bar code). Add "-X" to item no.

PRO-LINE TOOLS

MADE FROM “KNIFE QUALITY” HARDENED AND TEMPERED HIGH CARBON STEEL

Kemper PRO-LINE tools are crafted from select hardwood handles. The steel loops and blades are made from “knife quality” high carbon steel that has been heat treated and quenched in oil to give the blades maximum hardness and durability. Because high carbon steel takes and holds a sharper and longer lasting edge than stainless, these tools last much longer even when used with highly groged clays and plaster.

All of Kemper’s PRO-LINE tools are retained by brass ferrules and firmly set with industrial adhesives to protect against water and prevent them from coming loose. In addition each handle is immersed in an oil resin bath to seal the handle against water damage and prolong the life of the tools.

Since the cutting loops are made from high carbon steel which can rust, we recommend that the tools be kept clean and dry when not in use. Periodically applying a light coat of oil to the both the blade and handle will prolong the life of the tools.

Should the need arise these tools can be resharpened if necessary. However, do not use a power grinder as too much heat may be generated which will destroy the temper of the tools. Kemper recommends that a whetstone, either oil or water, be used to restore your tool’s keen edge without damaging the tool.

The following are part of the initial KEMPER PRO-LINE offering, more will follow. If there is a photo of the tool it means that tool is part of the Kemper inventory. If the tool is depicted by a line drawing it means tooling is still being developed and it will be coming soon.

POTTERY TOOL KIT

Code: PTK

Perfect for the beginning potter, in or out of the classroom. Used by schools and universities around the world, this kit is packaged in a reusable, clear vinyl bag with pockets to keep your tools together for travel or storage. Kit contains one each:

- Loop Tool (LT5)
- Ribbon Tool (8R2)
- Potter's Rib (RB2)
- Needle Tool (PRO)
- Wood Modeling Tool (WT6)
- Sponge (SPR)
- Scraper (S4) and
- Wire Clay Cutter (K35)

QUILLING TOOL

Code: QKT*

This easy to use quilling tool was designed for the beginner's success. Place the strip of paper between the prongs and twist. It's easy!

RIBBON TOOLS

(Sold individually)

Codes:

- R1* - 6" Ribbon Tool (see shape 1)**
- R2* - 6" Ribbon Tool (see shape 2)**
- R3* - 6" Ribbon Tool (see shape 3)**
- R4* - 6" Ribbon Tool (see shape 4)**
- R5* - 6" Ribbon Tool (see shape 5)**

THE R SERIES SCULPTING SET

Code: RSS (includes R1-R5)

Used for light cutting, slicing and shaping, these 6" double-ended ribbon tools come in a wide variety of shapes. The ends are formed from high-carbon heat-treated steel and are firmly attached to hardwood handles.

R2 Ribbon

DOUBLE "O" RIB

Code: RB00

For cutting, slicing, shaping and smoothing soft clay. Handcrafted and finished from imported hardwood, this comfortable rib is a total of twelve inches in length.

* Item available in bulk pack (no bar code). Add "-X" to item no.

POTTER'S RIBS

Codes:

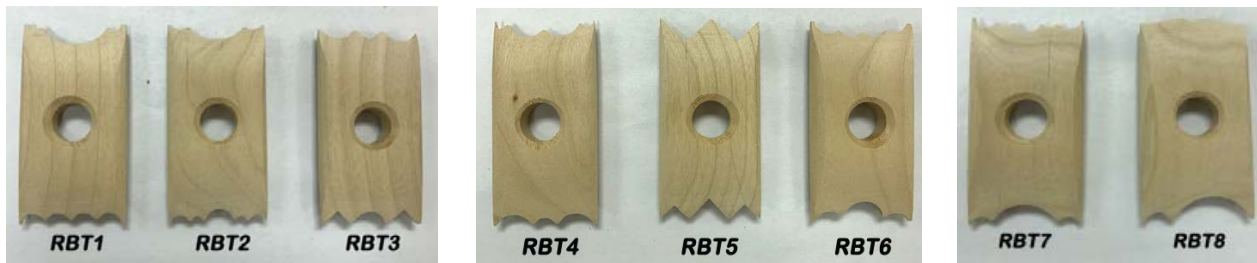

- RB1* - Potter's Rib, 4 1/8"
- RB2* - Potter's Rib, 4 1/4"
- RB3* - Potter's Rib, 4 1/4"
- RB4* - Potter's Rib, 3 1/2"
- RB5* - Potter's Rib, 5 3/4"
- RB6* - Potter's Rib, 4 1/8"
- RB7* - Potter's Rib, 4"
- RB8* - Potter's Rib, 5 3/4"

These ribs are made from smooth-finished hardwood, and employ the basic shapes required for opening, shaping, curving, smoothing and trimming wet clay on the potter's wheel.

TEXTURE RIBS - Codes as noted below

Here they are! These snazzy little ribs that provide you with texture, angles, and curves. Each rib is individually packaged in a polybag with header card and UPC coded. Available packaged only.

* Item available in bulk pack (no bar code). Add "-X" to item no.

RUBBER DETAILER SMALL

Code: RDS 2 per poly bag

Ideal for clay and greenware designing and /or cleaning.

THE SCULPTING TOOLS

Codes:

RE2* - Sculpting Tool, 8 3/8"

RE3*, Sculpting Tool, 9 3/4"

RE4*, Sculpting Tool, 8 1/4"

These tools combine the sharpened stainless steel ribbon cutting with the hardwood modeling too. The cutting end is firmly attached with heavy duty brass ferrule with the lengths of each tool ranging from 8" to 9 1/2".

RAKU TONGS

Codes:

RK37* - Raku Tongs, 37 Degree Jaw
39 1/2" Length

RK45* - Raku Tongs, 45 Degree Jaw
w31" Length

Use these long-handled tongs to grip both large and small raku pieces without danger of burns. Made from rust-free plated steel, the jaws are strong, solid steel with secure lightweight tubular handles.

RUBBER SCRUBBER

Code:

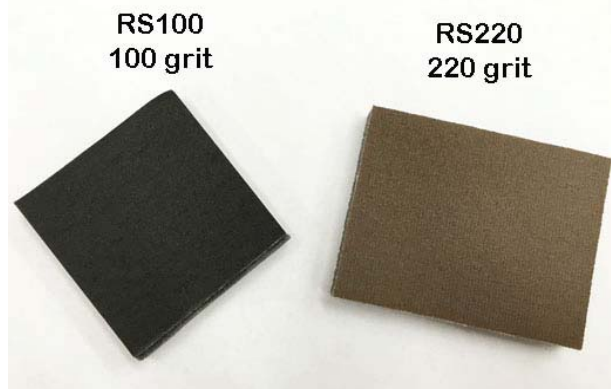

RS100* - Rubber Scrubber, 100 grit

Used for greenware, it is excellent for cleanup of seamlines and holes prior to firing. This 3" square, 1/2" thick, soft sponge is coated on one side with 100 grit abrasive material.

RUBBER SCRUBBER

Code: RS220* - Rubber Scrubber 220 grit

Used for smoothing and cleanup of ceramics and pottery pieces and sanding off roughness created by porcelain dust. This 4" rectangular, 1/2" thick, soft sponge is coated on one side with 220 grit abrasive material.

* Item available in bulk pack (no bar code). Add "-X" to item no.

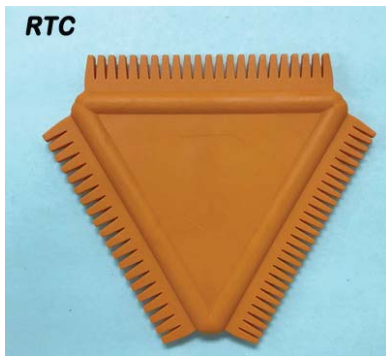

THE R SERIES SCULPTING SET

Code: RSS ---- Please see page 57

RUBBER TEXTURE COMB

Code: RTC

Use this tool with paint to make tree trunks, sidewalks, buildings and rolling hills. What other things can you make with these cool lines?

STEEL SCRAPERS

Codes:

- S1*, Scraper, 4 5/8"
- S3*, Scraper, 4"
- S4*, Scraper, 3 7/8"
- S6*, Scraper, 4"
- S10*, Scraper, 3 3/4"

Heavier Gauge Steel SCRAPERS

- S11*, Scraper, 6"
- S11S*, Scraper, 6"
- S12*, Scraper, 6"

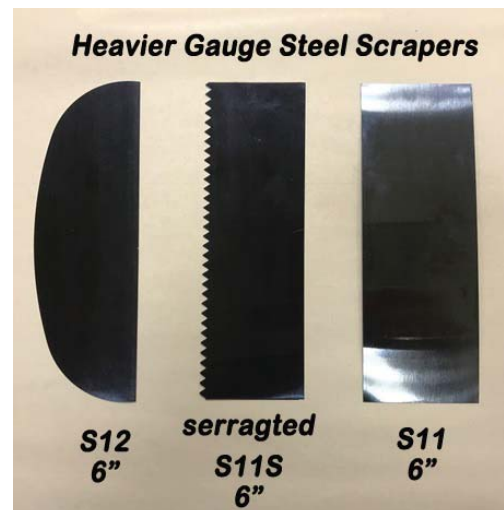

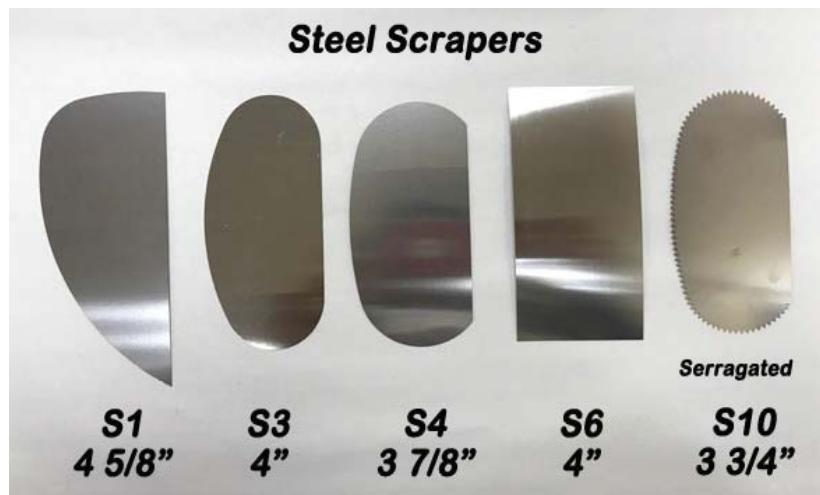

ALUMINUM SCRAPERS

- SA4*, A. Scraper, 3 7/8"
- SA10*, A. Scraper, 3 3/4"

RUBIT TOOL

Code: RUBIT

This new tool makes transferring stencils easy on your hands and fun to do. Made from imported hardwood and polished, this tool has edges that can accommodate both small and large areas.

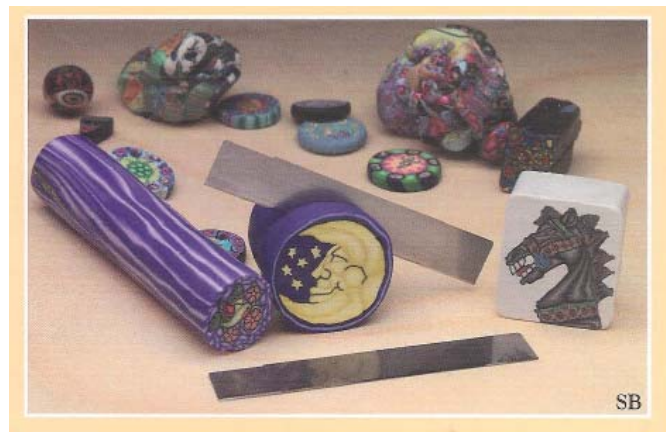

Used for shaping, smoothing and trimming pottery shapes. The steel scrapers (S) are made from thin flexible spring stainless steel. The S11S and S12 are slightly heavier gauge steel, making them somewhat stiffer. The aluminum scrapers (SA) are made from a high-strength aircraft alloy that is much more rigid. The rigid scrapers can also be used as a squeegee to remove excess water from pottery shapes.

* Item available in bulk pack (no bar code). Add "-X" to item no.

SLICING BLADE

Code: SB

You won't drag or smear your millifiori pattern with this surgically sharp blade. Use it for slicing canes paper thin or cutting rolled pieces for a project. Made from metal alloys that won't rust, the paper thin blade is 4 1/2" long and comes in a package of two.

SABER SAW

Code: SBR*

Used to make cutout designs in greenware, this tool is best suited for straight lines. The carbide steel saw is firmly set into a hardwood handle for a total length of 5 3/8".

SABER SAW FORWARD STROKE

Code: SBR-R*

Saber Saw - Cuts on forward stroke.

SPATTER BRUSH

Codes:

SBT

SBTL* - Large - 4"

Now you can spatter with no mess. This brush can give you a fine spray or cool paint on your favorite project. Simply point the bar toward the area you are spattering. The paint won't go anywhere else but on your project.

STEM CLEANER LARGE

Code: SCL (stem in case)

This cleaner is used for Large Gold Pen (item #GPL, FWPL)

* Item available in bulk pack (no bar code). Add "-X" to item no.

SCALPEL (DISPOSABLE)

Plastic handle

Code: SCP*

Everyone wants this scalpel. It's lightweight, easy to use, and surgically sharp! Don't let the low price and disposable look fool you, our customers tell us that these wonderful little knives last much longer than expected.

SCULPTING DETAIL STYLUS

Code: SDS*

Combination tool; Two different size stylus points. (See page 14)

SCRATCH KNIFE

Codes: SKT

SKT12 - Replacement blades (12)

SKT44 - Replacement blades (144)

This triangular head is for more defined lines in feathers, hair, grains, and other detail needs. The steel blades are replaceable in the smooth plastic handle and is 7 1/2" in total length. Replacement blades for the Scratch Knife come 12 in a big (SKT12), or 144 in a plastic container (SKT144).

SKT packaged in plastic tube

SCRATCH AND LIFT DUSTER

Code: SLD*

An extremely useful combination tool. One end is a soft brush which is ideal for removing loose particles when dusting the greenware before firing. The heat-treated spring steel knife can be used for detailing and lifting fine bird feathers, flower petals and fish scales just to name a few. It also makes an excellent sgraffito tool. The total length is 6 5/8".

SCRATCH & LIFT TOOL

Codes:

SLT

SLT-12 - Replacement blades (12)

SLT-144 - Replacement blades (144)

This rounded head is excellent for working with stencils in addition to clay lifting and detail work. The steel blades are replaceable in the smooth plastic handle and is 7 1/2" in total length. The replacement blades for the Scratch Knife come 12 in bag (SLT12), or 144 in a plastic container (SLT144).

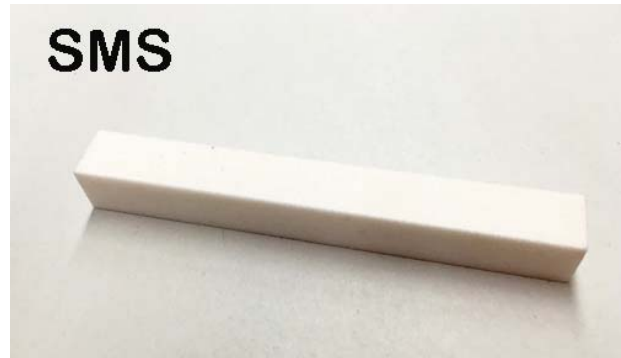

SLT packaged in plastic tube

* Item available in bulk pack (no bar code). Add "-X" to item no.

STILT MARK STONE

Code: SMS*

Within seconds you can remove unsightly lines and marks left after firing with our exclusive aloxite 4" Stilt Mark Stone.

SALT AND PEPPER DRILL

Code: SPD*

This tool makes the right size hole in greenware salt and pepper shakers. Double-ended, it has high carbon steel drills firmly set in a hardwood handle for a total length of 6 3/4".

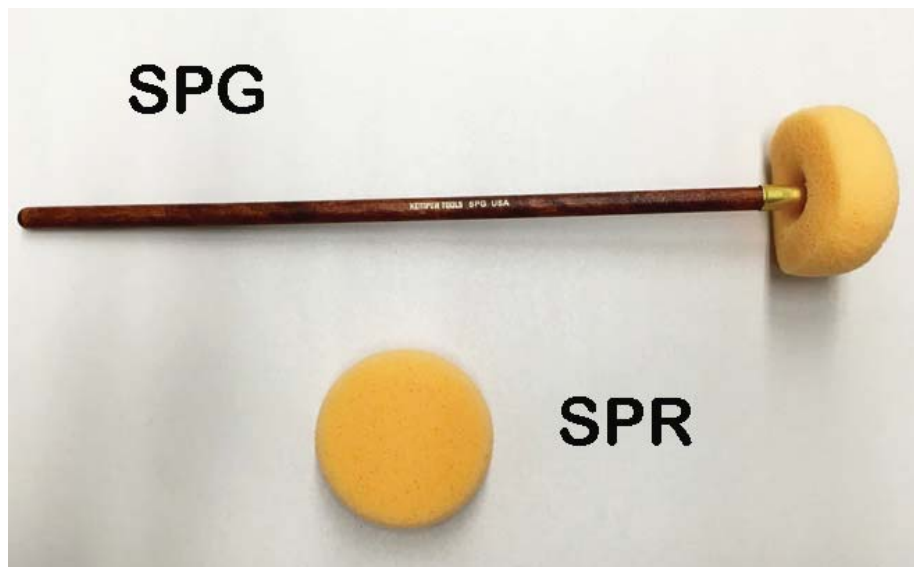

SPONGE HOLDER

Codes:

SPR* - Sponge

SPG* - Sponge Holder

Gets way down inside without gouging! The special hardware attaching the sponge protects your piece and can easily hold your favorite sponge in place. This sponge holder won't bend or flex under stress. Made from hardwood and 14" in length, you have complete control of where that sponge and handle are. Our ceramic sponge is included, attached by special hardware that will firmly hold any sponge. The sponge can be ordered individually as well.

* Item available in bulk pack (no bar code). Add "-X" to item no.

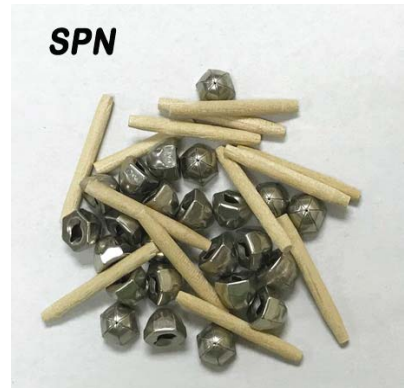

STEIN PIN AND NUTS SET

Codes:

SPN (12 per pack)

SPN-1 (single - 1 set)

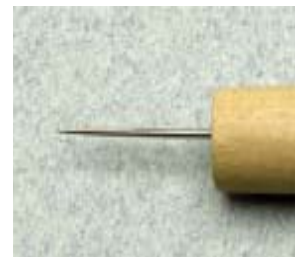

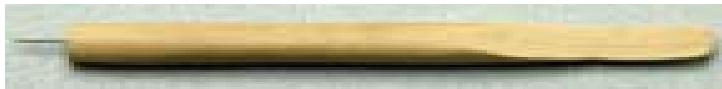

This set provides a quick neat method for attaching the hinged lid to ceramic steins. This 1 1/4" set consists of twelve self-threading plated nuts on a smooth hardwood pin.

STICKER PICKER-UPPER & SMOTHER

Code: SPUS*

For Scrap booking stickers. Use this tool to pick up the sticker and place it, then turn the tool around to smooth the sticker down.

SPONGE SANDERS

New and Improved

Codes:

SSF* - Fine, 320-400 Grit

SSM* - Medium, 120-180 Grit

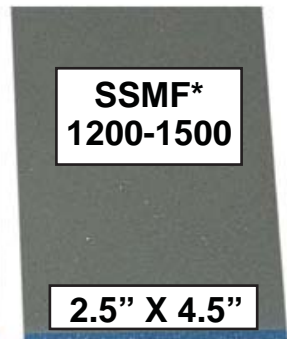

SSMF* - Micro Fine, 1200-1500 Grit

SSSF*, Super Fine, 500-600 Grit

SSUF*, Ultra Fine, 800-1000 Grit

SPONGE SANDERS
Use for clay, porcelain, stone, polymer clay, wood & more.

SLIP TRAILING BOTTLE

Code: STB

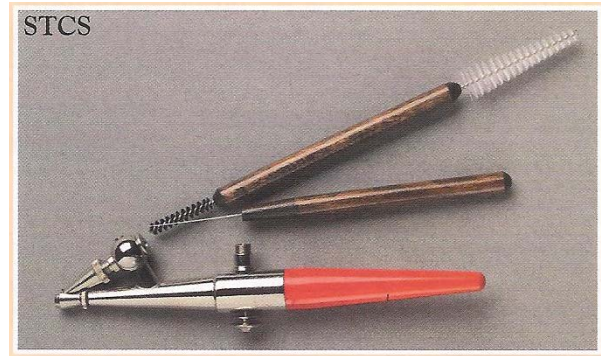

Used to flow casting slips, glazes and engobes onto ceramic pieces in raised decorative designs. With a 4-ounce capacity, this bottle is made from polyethylene making it squeezable, easy, and light to hold. Comes with a round spout, a ribbon spout, and caps for both.

* Item available in bulk pack (no bar code). Add "-X" to item no.

SPRAY TIP CLEANER SET

Code: STCS

Clean out clogged tips and excess paint with our cleaner set. Tip cleaner features fine burrs for removing clogs and semi-hardened strings of paint while the brush cleans out the well. You will need a STCS if you own a spray gun!

SCULPTORS THUMB

Code: STH*

Duplicates thumb and finger strokes for pushing, smoothing, and covering up those finger marks. This compact 5" tool fits comfortably in most hands.

SCRATCH WIRE BRUSH

Code: SWB*

Many special effects that were difficult (and time consuming) are simple to achieve with a single tool. One stroke is all it takes to make multiple fine lines with these angled bristles. The heat-treated steel bristles are firmly set in a firm grip, textured aluminum handle for a total length of 5".

SWIZZLE STICK

Code: SWZ*

Just twirl between the palms of the hands, and the round loops rapidly agitate and mix paints, stains, and glazes in the bottle. These galvanized steel loops are firmly set in a hardwood handle for a total length of 6 1/4".

* Item available in bulk pack (no bar code). Add "-X" to item no.

CARBIDE DRILL BITS

Codes: (sold individually)

TGR2 - Drill Bit, 1/16" Truebite

TGR3 - Drill Bit, 3/32" Truebite

TGR4 - Drill Bit, 1/8" Truebite

Use these drills to make holes in bisque, remove glaze from holes after firing, or make slots in banks. Also for use with high-speed hand grinding tools. Shank measurement 1/8" diameter. Available individually, or as a set (TGRS which includes TGR2, TGR3, TGR4, plus three micro-fine points.)

CARBIDE DRILL BIT SET

Code: TGRS

(Set includes TGR2, TGR3, TGR4, plus three micro-fine points, less than 3/64".)

COMMERCIAL TRIM KNIFE

Code: TRM*

Spend less time sharpening and more time working on highly abrasive clay products. The "file hard" heavy steel blade is firmly set in a hardwood handle with a total of 7" in length.

THROWING STICKS

Codes:

TS1* - larger one

TS2* - smaller one

Patterned from the Japanese egote, this tool aids shaping and compressing deep, narrow necked wheel thrown pieces. Made in two sizes of fine hardwood that is polished to a satin finish, these "comfortably fitting" throwing sticks are 12 1/2" in length.

* Item available in bulk pack (no bar code). Add "-X" to item no.

TURNING TOOLS

Codes:

- TT1*** - Large Teardrop
- TT2*** - Small Teardrop
- TT3*** - Triangle
- TT4*** - Right Handed
- TT5*** - Left Handed

TT Tools are shipped with synthetic wax for protection; It must be removed before use.

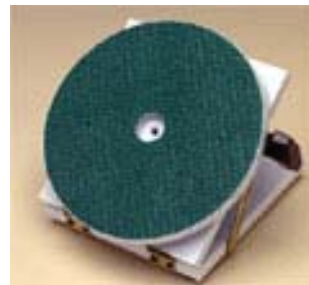

Used by potters to accurately shape, contour, and trim clay and plaster forms on the wheel. The heavy steel heads are brazed to steel shafts, plated, and firmly set into smooth hardwood handles.

TILT AND TURN TABLE

Code: TTT-1

Take the stress out of designing on flat items. This turn table works just like an easel with a few improvements. Tilting up to 30 degrees, the non-slip pad holds your piece in place in addition to the key that stops the 7 3/4" table from turning while you work.

TILT AND TURN TABLE EXPANSION TOP

Code: TTT-TOP

For work on larger pieces, simply place this 11 3/4" top into the center hole of the turn table.

UTILITY KNIFE

Code: UK

Ideal for fine cuts on greenware, leather work, stenciling and more. This all purpose cutting tool has interchangeable parts with other, standard, utility knives. The surgically sharp blade is held firmly with a four-jaw chuck, releasable, handle. This knife has a textured aluminum handle for a sure grip with wet hands.

UK packaged in plastic tube

* Item available in bulk pack (no bar code). Add "-X" to item no.

UTILITY KNIFE REPLACEMENT BLADES

Code: UKR (5/pk)

These razor sharp blades are a standardized size and fit nicely into other brands' handles. Five to a pack.

SOFT GRIP UTILITY KNIFE

Code: UKS

Ideal for fine cuts on clay, greenware, paper products, leather-work and more. This all purpose utility knife has a new look. The NO-STRESS padding surrounding the barrel gives your fingers a break from using pressure to grab. This knife has a surgically sharp blade handle, held firmly with a (releasable) four-jaw chuck.

UKS packaged in plastic tube

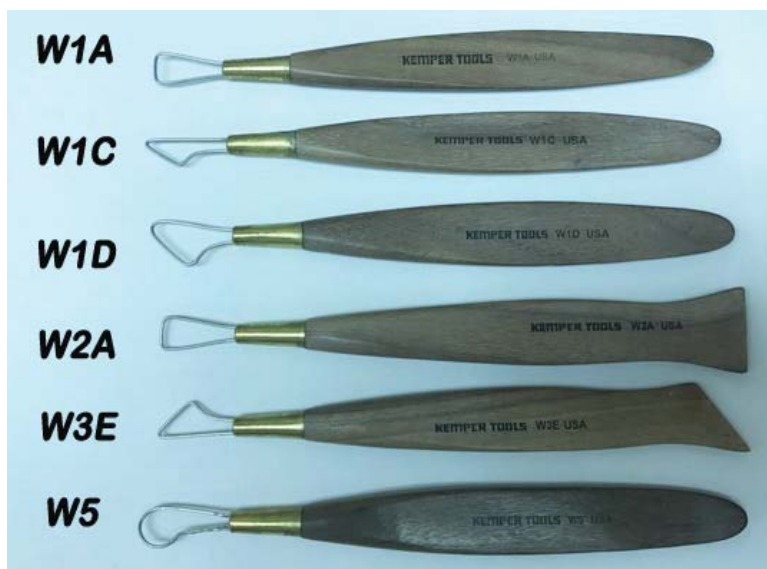

Wire and Wood together provide the sculptor with clay removal and shaping at their fingertips. This wonderful combination of wire and wood are made with plated high strength music wire, brass ferrules and imported hardwood.

6" WIRE & WOOD TOOLS

Codes:

- W1A* - 6" Wire & wood Tool - see shape
- W1C* - 6" Wire & wood Tool - see shape
- W1D* - 6" Wire & wood Tool - see shape
- W2A* - 6" Wire & wood Tool - see shape
- W3E* - 6" Wire & wood Tool - see shape
- W5* - 6" Wire & wood Tool - see shape

You will find the .035" diameter music wire great for light trimming, as well as delicate clay removal and shaping.

W3E Tip

* Item available in bulk pack (no bar code). Add "-X" to item no.

Wire and Wood together provide the sculptor with clay removal and shaping at their fingertips. This wonderful combination of wire and wood are made with plated high strength music wire, brass ferrules and imported hardwood.

5" WIRE & WOOD TOOLS

Codes: (see shapes)

W21 - 5" Wire & wood Tool

W22 - 5" Wire & wood Tool

W23 - 5" Wire & wood Tool

W24 - 5" Wire & wood Tool

W25 - 5" Wire & wood Tool

W26 - 5" Wire & wood Tool

Designed for delicate clay removal and shaping, these wire tips are some of our smallest wires at .020" diameter.

WIRE BRUSH - EXTRA FINE

Code: WBEF*

Ideal for clay and greenware designing with extra fine wire brush.

CHILDREN'S WOOD MODELING TOOLS

Codes:

WC1-X - see shape

WC3-X - see shape

WC5-X - see shape

WC15-X - see shape

WC27-X - see shape

Used for medium duty clay removal, modeling and shaping. The wire ends are .055" diameter, and formed from high-strength stainless steel. Tips are firmly attached to 8" long hardwood handles with brass ferrules.

* Item available in bulk pack (no bar code). Add "-X" to item no.

8" WIRE & WOOD TOOLS

Codes: (see shape)

WE8A* - 8" WIRE AND WOOD

WE8B* - 8" WIRE AND WOOD

WE8C* - 8" WIRE AND WOOD

WE8D* - 8" WIRE AND WOOD

WE8E* - 8" WIRE AND WOOD

WE8A Wire Tip

WET TEXTURING BRUSH

Code: WG2*

These bristles are not quite as stiff as our dry (DG1) brush, and are super for use on soft, damp greenware or clay. The brush is made with stainless steel wires firmly set in a hardwood handle for a total length of 6 1/2".

WG2

WIRE LOOP SGRAFFITO

Code: WLS*

Wire loops on each end of this tool provide a method of sgraffito in which variations of line width can be made within a single stroke. The furrow created by the loops is smooth and does not exhibit the flakiness usually associated with other sgraffito methods.

WLS

WIPE OUT TOOL

Code: WOT*

Erase your mistakes quickly and accurately with this specialized rubber that attracts gold as well as most painting mediums. For use on non-porous surfaces.

WOT

WIRE STYLUS

Code: WS*

This stylus has a very small and delicate wire used for incising, creating various size furrows and detailing small areas. The total length is 6" making this tool a perfect fit for small detail work.

WS

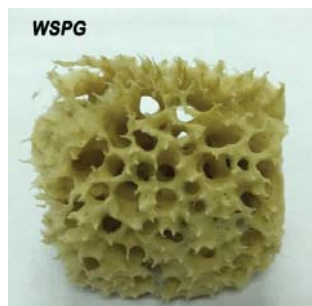

* Item available in bulk pack (no bar code). Add "-X" to item no.

WOOL SEA SPONGE

Code: WSPG*

Can soak it up as well as decorate, make a texture, use directly onto the clay of with glazes. We find our sponge to be larger and more interesting than other's we have seen on the market.

WOOD MODELING TOOLS

Used for cutting, slicing, smoothing, contouring, and pattern decorating in soft clay. These series of wood tools offers a wide variety of shapes and contours for basic clay modeling. They have a satin smooth finish with a rigid manufacturing process to assure consistent quality and form. Made in the USA from imported hardwood.

The Kemper Story

In the beginning....

Jack Kemper, at the request of a friend who was a ceramic teacher, created a simple, well constructed tool in his garage workshop. The tool was constructed of the best quality materials. Not satisfied with creating just a functional tool, Kemper believed that tools for creating works of art should fit comfortably in the artists' hand.

In 1947, Jack Kemper took the first step toward establishing a company dedicated to providing quality products and service. Kemper's desire to go beyond the norm with service, price and quality has survived for over 50 years, along with company motto of "*Tools That Craft The Hand Of The Artist*".

Responding to the needs of teachers, artists, hobbyists and manufacturers, Kemper has emerged as the world's largest manufacturer of pottery, sculpting and ceramic tools.

In this rapidly changing field, Kemper has continued to strive to bring you the latest product of innovative design along with the old fashioned value of personalized customer service.

Interest became widespread....

Jack Kemper's reputation grew. Ceramists, potters and sculptors turned to Kemper for special tools. He combined practical know-how and a sense of design with the study of tools from the early Romans. Although most of the 500 various tools we now have no predecessors, several bear resemblance to their classic ancestors, and are themselves examples of fine sculpture. Under tutelage of 96 years old master craftsman, Anthony Rigotty, Kemper studied techniques in creating fine wooden modeling tools. A short time later, he purchased the Anthony Rigotty company and incorporated many of those designs and patterns into the production of Kemper Manufacturing.

In 1981, Jack Kemper retired, selling the company to Kemper's Vice President, Herb Stampfl. Herb originally started at Kemper Manufacturing as an engineer. Today, Herb is the President of Kemper Enterprises, Inc. and not only runs the business but designs the latest tools (I think he likes this part the best). Herb continues the tradition of top quality product.

In 1982 a line of doll making tools was added. Designing tools to fit the needs of doll artists was just the beginning. Needing components to create a doll from start to finish, Kemper added a complete line of doll accessories.

Kemper employees....

are here to stay. Some have been here over 20 years! Today that says something. Our staff in the factory take pride in making each tool the best quality possible.

Our Values have never changes....

over the 50 years we've been in business. We still provide excellent customer service, we price competitively and we still only use top quality raw materials in our tools.

Today, KEMPER still stands for quality tools, superior service and affordable prices. We are proud to be a progressive company, bringing you new innovative art tools to craft the hand of the artist.
